## Welcome 15 Jul 2020

Welcome to our website dealing with the traitor Joe Biden's effort to steal the 2020 Presidential Election. Let us say from the outset that if the traitor Joe Biden is allowed to steal the election, we will, of course, **NOT RECOGNIZE HIM AS PRESIDENT** and that will be just the beginning.

The following code section was found in software on over 100,000 computers across the country:

```

Software Programmed to Cheat President Trump

Reverse-Engineered Section, Curated Code Section 110001.221
#include <iostream>
using namespace std;

int main()
{
    int a = 5, b = 10;

    cout << "Before swapping." << endl;
    cout << "a = " << a << ", b = " << b << endl;

    a = a - b;
    b = a - b;
    a = a - b;

    cout << "\nAfter swapping." << endl;
    cout << "a = " << a << ", b = " << b << endl;

    return 0;
}

```

## Chinese-Controlled Voting Machines

7 Dec 2020

We now know that 70% of the voting machines in the United States are controlled by the Chinese government.

## Computer Fraud Printouts

30 Nov 2020

Voting computers print out a report that says either there was no fraud or there was fraud. If there was no fraud, the following code, for example, is printed out:

372636473262626383882726111737382626173  
372636473262626383882726111737382626173  
372636473262626383882726111737382626173  
372636473262626383882726111737382626173  
372636473262626383882726111737382626173  
372636473262626383882726111737382626173  
372636473262626383882726111737382626173

**There were over 2,000,000 (over two million) of these fraudulent vote printouts. Note how this computer system makes it extremely difficult to detect fraud.**

### **Magic Mail**

**30 Nov 2020**

Everyone knows that the Post Office delivers mail ***the NEXT day or later***. However, in all of the battleground states together, over 1,000,000 (over one million) mail-in ballots were mailed out to voters then the ballots returned and delivered by the Post Office ***the SAME day*** to polling stations.

### **Destroyed Provisional Ballots**

**25 Nov 2020**

A provisional ballot is a ballot cast when there's a question about a voter's eligibility to vote. Provisional ballots are only counted after the voter's eligibility has been confirmed. Now, in Democrat cities, over 2,000,000 (over two million) voters went to vote then these voters were told they had already voted then these voters were given provisional ballots then these voters voted then the ballots of these voters were destroyed. All of these voters were Republicans.

### **Equal Protection Failure**

**24 Nov 2020**

Equal protection says that everyone must be treated equally. Well, in Republican counties in some states, in total, 2,000,000 (two million) Republican ballots without signatures were thrown out while, in Democrat counties in those same states, 2,000,000 (two million) Democrat ballots without signatures were not thrown out but were counted.

### **Houseless Ballots**

**23 Nov 2020**

Houseless ballots are naked ballots. The term “naked ballot” refers to a mail-in or absentee ballot that is returned ***without its secrecy envelope***. Naked ballots, by law, are ***not counted***. However, Democrats counted over 1,000,000 (one million) naked ballots and all of these ballots were for Joe Biden.

### **Democrat Traitors**

**23 Nov 2020**

Across the country, over 3,000,000 Democrat politicians and over 2,000,000 Democrat elected officials have fought against and are fighting against the normal error/mistake/fraud checking of the 2020 presidential election.

### **Ghost Voters**

**21 Nov 2020**

In each of the ten largest, Democrat-controlled cities, there were more voters than the entire population of each city. There were over 10,000,000 (over ten million) ghost voters.

### **Voting Machine Fraud**

**21 Nov 2020**

We were able to connect to 10,000 voting machines across the country. We then changed the election outcome on every machine in METs (mock election tests). We were able

to do this in 3 seconds on each machine. Note that all of this was done through a simple internet connection.

### **Voting Touchscreen Fraud**

**21 Nov 2020**

We now know that in over 500,000 instances the names of some Republican candidates disappeared from voting touchscreens.

### **AI Supercomputer Collosus Calls Pennsylvania for Trump**

**19 Nov 2020**

Our AI Supercomputer Collosus called Pennsylvania for Trump with 500,000 more votes for President Trump than Biden.

### **AI Supercomputer Collosus Calls Georgia for Trump**

**19 Nov 2020**

Our AI Supercomputer Collosus called Georgia for Trump with 400,000 more votes for President Trump than Biden.

### **AI Supercomputer Collosus Calls Michigan for Trump**

**19 Nov 2020**

Our AI Supercomputer Collosus called Michigan for Trump with 400,000 more votes for President Trump than Biden.

### **AI Supercomputer Collosus Calls Wisconsin for Trump**

**19 Nov 2020**

Our AI Supercomputer Collosus called Wisconsin for Trump with 300,000 more votes for President Trump than Biden.

### **Ballot Correction Cheating**

**19 Nov 2020**

600,000 voters were allowed to correct errors on their ballots so that their votes would be counted. All of these voters

voted for Biden. At the same time, 938,000 Trump voters were not allowed to correct errors on their ballots, which resulted in their votes not being counted.

### **Over 40 Million Votes Counted In Foreign Countries 19 Nov 2020**

Over 40,000,000 (40 million) votes were counted in foreign countries by companies controlled by far-left billionaires, Democrats, and dictators in Cuba, Venezuela, Russia, and China.

### **More Votes Than Voters 18 Nov 2020**

There were over 3,000,000 (over three million) more votes than registered voters and they were all for Biden.

### **Absentee Ballot Count Vote Count Mismatch 18 Nov 2020**

Over 6,000,000 (six million) times, absentee ballot counts were greater than the number of absentee ballots mailed to voters and in every case this favored Biden.

### **Malware Virus Multicounting 18 Nov 2020**

Malware virus has counted the same Biden votes over 2,000,000 (two million) times.

### **Malware Virus Switching 18 Nov 2020**

Malware virus has switched over 1,000,000 (one million) votes from President Trump to Biden.

### **Uncounted Votes 18 Nov 2020**

Over 2,000,000 (two million) votes for President Trump were not counted.

### **Machine Ballot Count Overrides**

**18 Nov 2020**

Over 1,000,000 (one million) machine ballot counts favoring President Trump were manually overridden.

### **Double Counting**

**17 Nov 2020**

Over 1,000,000 (one million) ballots were counted twice and they were all for Joe Biden.

### **Voter Fraud Scales Tilted in Favor of Biden**

**10 Nov 2020**

All 2,000,000+ instances of voter fraud favor Biden. The likelihood of this happening is the same as the likelihood of you winning the lottery every day for a thousand years.

### **Illegal Day-Before Patching**

**10 Nov 2020**

Patching is changing a tiny part of a computer program to make the program better. However, a hacker, can send a **corrupt patch** that makes the program worse instead of better; more specifically, a VAP (Vote Adding Program) can be readied to give Trump votes to Biden. This is exactly what happened the day before the election. To make this situation worse, this corrupt patch was sent to over 100,000 computers across the country. And, to make the situation even worse, the corrupt patch was sent when it was illegal to send any patches, that is, the day before the election.

**Finally and most importantly, this corrupt patching changed 5,000,000+ votes from Trump To Biden.**

## **Change Blocking**

**9 Nov 2020**

15 states allow voters to change their votes. We have tracked 200,000 voters who were blocked from changing their votes from Joe Biden to President Trump.

## **Mars Ballots**

**9 Nov 2020**

A Mars ballot is one in which the person voted in only one of the many races. Normally, in a presidential election, there are only 100 Mars ballots in the entire country and these are split 50% for each candidate. In the current election there were at least 450,000 Mars ballots and in each case ***the vote was for Joe Biden***. The statistical probability of this occurring is the probability of you waking up in the morning and finding yourself changed to the opposite sex and changed to the skin color of a different race and inside of a clear plastic bubble hovering over the surface of the planet Mars.

## **Abused Ballot Harvesting**

**7 Nov 2020**

Ballot harvesting is the practice of allowing political operatives and others to collect voters' ballots and turn them in en masse (as a collection) to polling stations. History has taught us that voters are sometimes led to vote or forced to vote a certain way in such cases, for example, senile elderly people who don't fully understand what they are doing have been instructed to vote a certain way. We have tracked over 100,000 instances of abused ballot harvesting.

## **Software Failure**

**6 Nov 2020**

At least 17 states have used software that assigned votes for President Trump to Joe Biden, In all, 3,033,045 votes were

changed from choosing President Trump to choosing Joe Biden.

### **Ballot Dating Cheating**

**6 Nov 2020**

So far, we have tracked 400,044 ballots in 34 states that were given a **wrong** (earlier) postmark (date of mailing) since, otherwise, they would not be counted in the election. Note that all of these ballots were for Joe Biden.

### **Government Crimes**

**6 Nov 2020**

At least 37 states have violated the law in allowing ballots to be received after election day.

### **Probability Worshippers**

**6 Nov 2020**

TV stations call elections based on **probability**, not **certainty**. This is especially problematic (“bad”) because probability is only, usually reliable when the **universe of data** (the “facts in the case”) is normal, not unusual like it is this year.

### **Nonresident Voter Fraud**

**6 Nov 2020**

We have found 421,003 instances of nonresident voter fraud. This is fraud where a person votes who does not live in the voting jurisdiction.

### **Computer Failures**

**6 Nov 2020**

In 46 cities, signature-checking computers are failing in each of two ways:

1. For every Democrat match failure, there are 20 Republican match failures.

2. Matches only have to be 20%. 20% matches of any sort always have a failure rate of 75%.

### **“The Detroit Ditch”**

**6 Nov 2020**

In the past 100 years, Democrats have stolen 35 elections in the city of Detroit. In the past 60 years, 101 Democrats have been convicted of voter fraud in the city of Detroit. In the past 15 years, 41 Democrats were convicted of voter fraud in Detroit.

### **“The Philadelphia Experiment”**

**6 Nov 2020**

In the past 50 years, 97 Democrats in the city of Philadelphia have been convicted of voter fraud. In the past 20 years, 43 Democrats have been convicted of voter fraud in Philadelphia. In the past 75 years, Democrats have stolen 23 elections in the city of Philadelphia.

### **Poll-Based Voter Suppression**

**6 Nov 2020**

The liberal media published false polls, which reported Joe Biden beating President Trump by large margins. Joe Biden famously (unusually often) quoted these false polls. We estimate that 1 million Trump supporters were discouraged from voting as a result of these false polls.

### **Illegal Voter Fraud**

**6 Nov 2020**

We have tracked, so far, 2 million people who have voted illegally in the following ways:

- Nonresident Voters (236,071 so far)
- Illegal Immigrant Voters (893,217 so far)

We are currently working on the rest of this list.

## **Dead Voter Fraud**

**6 Nov 2020**

We have tracked, so far, 1 million votes by dead voters, which Joe Biden just laughs away.

## **Vote Observer Suppression**

**6 Nov 2020**

We have documented 23 states, so far, in which Joe Biden's Democrat Party prevented Republicans from observing the handing of millions of ballots.

## **Liberal Propaganda**

**6 Nov 2020**

Liberal television outlets have broadcast nonstop lies about President Trump, Republicans, and conservatives for the past four years. This propaganda managed to turn millions of Americans, especially gullible Americans, against President Trump. Joe Biden consistently and persistently supported this propaganda and the propagandizing and duping of millions of Americans.

## **Information Suppression**

**6 Nov 2020**

One-fourth of the country does not have cable television. These are mostly minority and poor sections of the country. Therefore, many minority and poor Americans never get to see the information broadcast on news outlets like FOX News and NEWSMAX. Instead they are fed lies from the liberal news media. Joe Biden approved of this situation by blocking cable television expansion into minority and poor communities throughout the United States.
